Good to Know

Milk and Juice Cartons

You can recycle milk and juice cartons. Plastic spouts are fine, but toss the lid in the trash.

Aseptic packaging is NOT accepted. This means shelf-stable items like juice boxes, soy milk, soups and stocks.

Shredded Paper

Put shredded paper in a paper bag and roll down the top before putting in your recycle cart.

Pizza Boxes

Put pizza boxes in the trash. Food-soiled paper is not recyclable and only yard debris is accepted in yard waste containers.

Glass

piercecountywa.org/glass

Glass is not collected curbside in Pierce County. Glass has very little market value and makes up a small percentage of our waste stream. Throw glass in the trash or take it to drop-off sites for recycling.

Contamination

Food residue is a contaminant that ruins the recyclability of materials. If you can't empty and rinse a container please don't put it in your recycle cart.

Safety

piercecountywa.org/sharpsdisposal

Needles, sharps, ammunition and other dangerous materials turn up at sorting facilities every day. These are safety hazards for employees and should never be in recycling carts.

Recycling Resources

Online Recycling Menu

piercecountywa.org/recyclemenu

Skip a trip to the transfer station. Our online recycling menu is a resource for finding places to drop off your unwanted items for re-use or recycling.

Plastics

Recycle Plastics by Shape

Numbers on the bottom don't tell you if an item is recyclable. That's why we ask you to look at the shape. The types of plastic we collect have the best chance of being recycled into new products.

We accept:

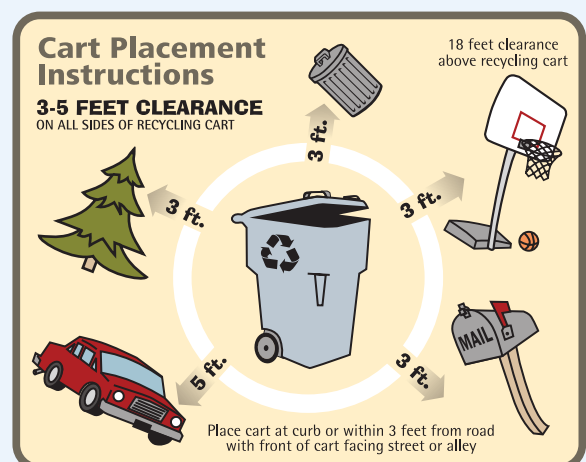

- Plastic bottles
- Plastic jars, tubs and buckets

Plastic Items Not Accepted:

- **Lids**
Throw lids in the trash. Plastic lids and caps are too small to be sorted properly and don't get recycled.
- **Bags and Wrap**
Grocery bags and plastic wrap get tangled in machinery at sorting facilities. Throw plastic wrap in the trash. Reuse plastic bags or take back to participating grocery stores for recycling.
- **Crinkly and Lightweight Plastic**
Items like plastic drink cups, clamshell packaging for produce, and packaging around toys and electronics are not recyclable because they flatten during collection and processing and get sorted incorrectly as paper. Throw these items in the trash.

What to do on recycling day

- Cart should be at the curb by 6 a.m.
- All items must fit in cart with the lid closed
- Lid opening toward street—handle toward house
- See diagram below for cart distances
- Remove empty cart from curb as soon as possible
